

Minutes from 3rd August

Transnational Learning Activity in Tvaaker

- it is the time to make the decision to have enough time to arrange all necessary
- the Swedish team has decided last week that they need to postpone the meeting. They are still recommended to work at home when they can and they are not able to predict how things will develop. The plan for our meeting was that we should visit different manufacturers in the south of Sweden but they are not welcoming these days.
- all project partners agree that postponing the TLA in Sweden is the correct course of action. Until the participants are comfortable about travelling there is no sense in putting anyone at risk
- the coordinator will ask the National Agency for agreement with the TLA postponement
- the coordinator hope that we will be able to welcome you in Benesov in the middle of April. The exhibition TechAgro was postponed to April 11th – 14th.
- the next TLA is planned in Benesov in April 12th – 16th
- it is needed to find new suitable term for the TLA in Sweden – suggestion June 2021
- the last meeting will be in September or October 2021 in Denmark
